Discussion and Results

Raul Alarcón, Jr., Chairman and CEO, commented, "We saw some improvement in the business environment across select markets during the first quarter. We have continued to focus on supporting our strong brands and market leadership through strategic investments in our content and distribution, while managing our costs. Looking ahead, our target audience continues to expand rapidly and our multi-media portfolio remains well positioned to attract advertisers in the nation's largest Hispanic markets."

Quarter Results

For the quarter ended March 31, 2011, consolidated net revenue totaled \$30.8 million for the current and same prior year period, respectively. Our television segment net revenue increased \$0.6 million or 15%, primarily due to an increase in national spot sales and paid programming sales, offset by a decrease in local spot sales. Our radio segment net revenue decreased \$0.6 million or 2%, primarily due to local sales, offset by an increase in network sales. The decrease in local sales occurred in our New York and Miami markets. The increase in network sales occurred in all of our markets.

Operating income before depreciation and amortization and (gain) loss on the disposal of assets, net, a non-GAAP measure, totaled \$5.5 million compared to \$6.0 million for the same prior year period, representing a decrease of \$0.5 million or 8%. This decrease was primarily attributed to the increase in operating expenses, offset by a decrease in corporate expenses. Please refer to the Non-GAAP Financial Measures and Unaudited Segment Data sections for definitions and a reconciliation of GAAP to non-GAAP financial measures.

Operating income totaled \$4.1 million compared to \$4.4 million for the same prior year period. This decrease was primarily attributed to the increase in operating expenses, offset by the decreases in corporate expenses and depreciation and amortization.

Operating Income before Depreciation and Amortization and (Gain) Loss on the Disposal of Assets, net, are not measures of performance or liquidity determined in accordance with GAAP in the United States. However, we believe that these measures are useful in evaluating our performance because they reflect a measure of performance for our stations before considering costs and expenses related to our capital structure and dispositions. These measures are widely used in the broadcast industry to evaluate a company's operating performance and are used by us for internal budgeting purposes and to evaluate the performance of our stations, segments, management and consolidated operations. However, these measures should not be considered in isolation or as substitutes for Operating Income, Net Income (Loss), Cash Flows from Operating Activities or any other measure used in determining our operating performance or liquidity that is calculated in accordance with GAAP. In addition, because Operating Income before Depreciation and Amortization and (Gain) Loss on the Disposal of Assets, net, is not calculated in accordance with GAAP, it is not necessarily comparable to similarly titled measures used by other companies.
